Dear Parent/Guardian

Regarding Flu spray it's not too late to consent!

If your child suffers with asthma, have they experienced any of the following:

- **Increased inhaler use**
- **Wheezy 72hrs before school vaccination date**
- **Taken oral steroids within 14 days**

If so, you MUST call 0300 124 0366, as your child may not be able to receive their vaccination.

Many thanks,

School Age Immunisation Team
