Using the Go4Schools App

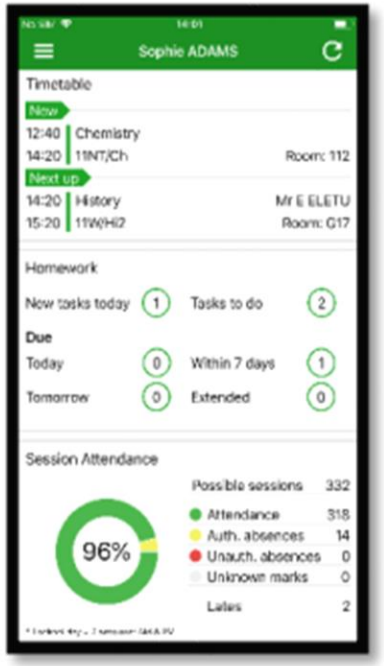
Getting Started

Parent GO 4 Schools Mobile App Quick Start Guide

The GO 4 Schools Mobile App keeps you informed about your children to ensure you can see how they are performing at school. The App is completely free of charge to both parents and students and can be downloaded from:

You will be able to view your child's timetable, homework, attendance, behaviour, attainment information and their school reports.

The homepage shows a student's current timetable and overview of the status of their homework.
Scroll down to see attendance, behaviour and attainment information.
Tap on the timetable or homework to view more information.



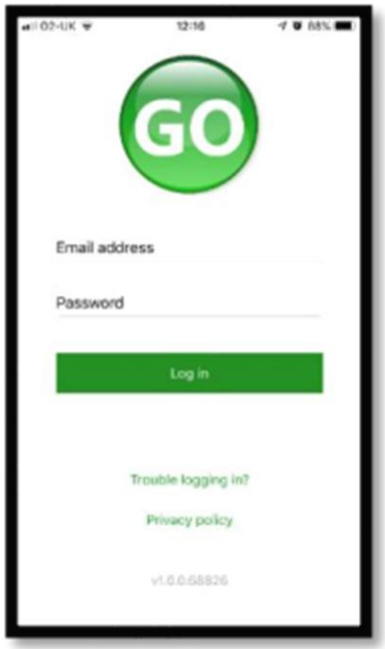
You will also receive notifications containing a summary of homework tasks at the end of the school day.

Should you NOT wish to receive these daily updates you will need to log into the desktop go4schools system and change your settings there.

To use the app you will need to have activated your go4schools account.

Click on first time user at www.go4schools.com.

1. Tap on the App to open.
2. Type in your email address and password.
This is the same email address and password you use to log into the GO 4 Schools website.
3. Click on 'log in'.
If you are a first-time user, you will need to log into the website first to receive your password.



Homework overview:
The homework card allows you to filter by ongoing, extended, pending homework or history.

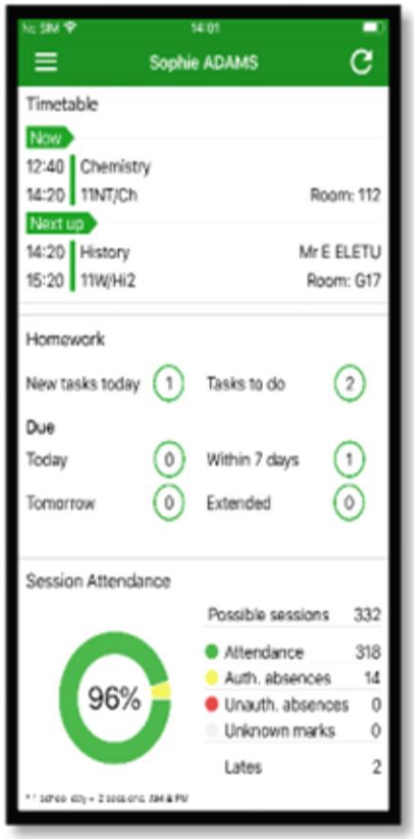
You will also see which homeworks your child has marked as ‘Done’.

Tap on the specific homework you wish to view.

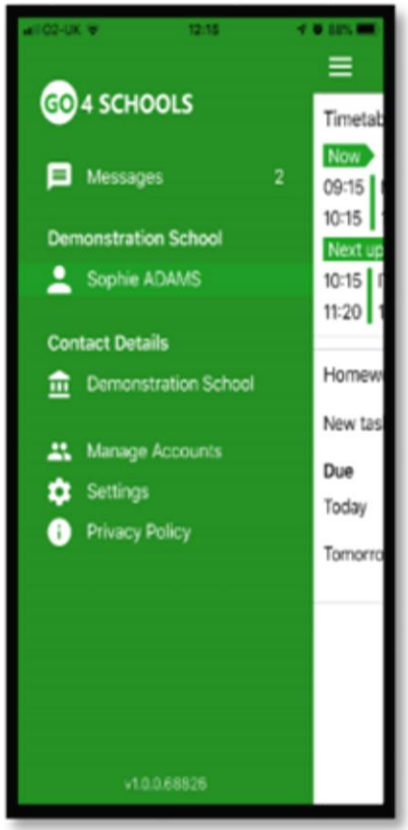
Homework detail:
Detailed homework information is visible with attachments and weblinks.
If the school tracks homework you can see when a class teacher has ticked off the completion of homework tasks or marks if the work has been assessed.
You will also see if your child has marked it as ‘Done’.

Messages

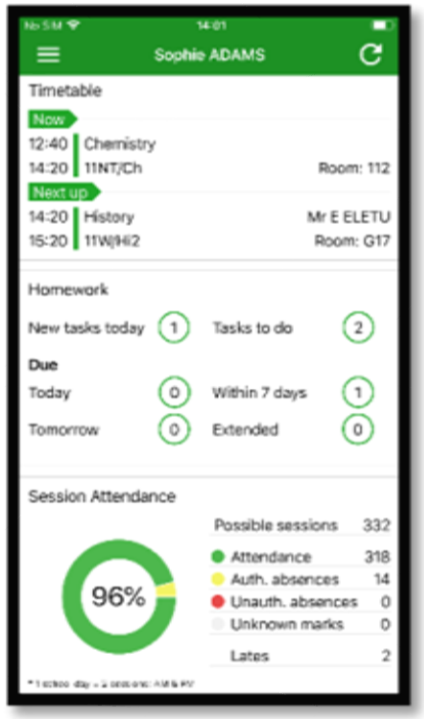
Tap on the menu in the top-left corner to access messages and settings.



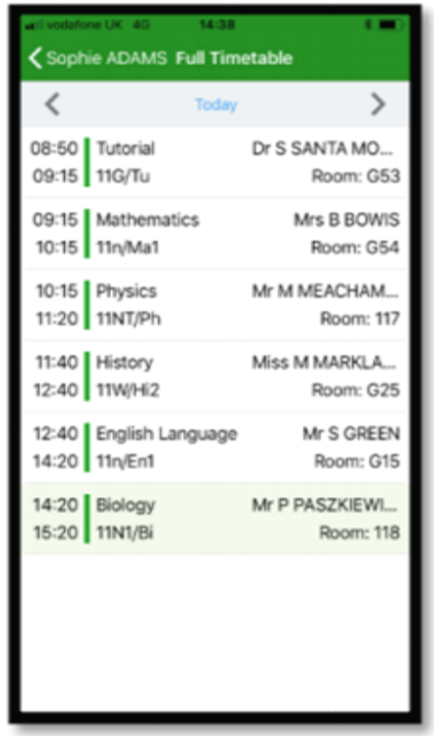
Messages from your school and your settings can be accessed from this menu.



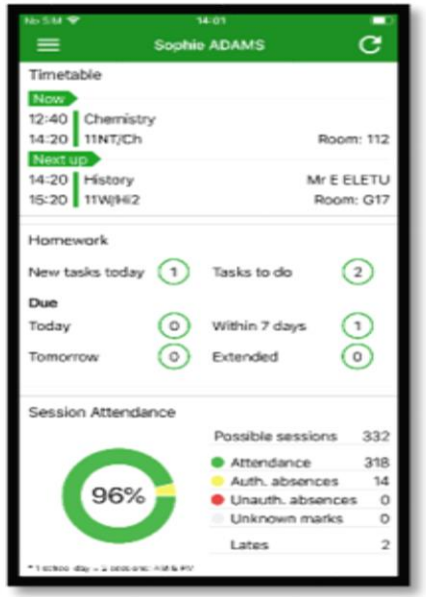
Timetable:
From the main screen you can also tap on the timetable for more information.



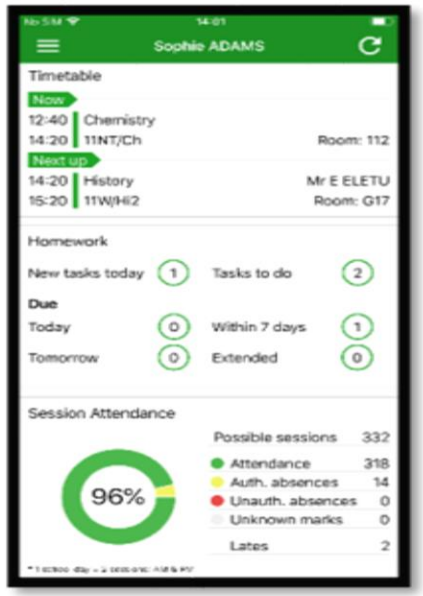
Timetable detail:
You are then presented with today's timetable. You can tap or swipe to previous and future days at the top.



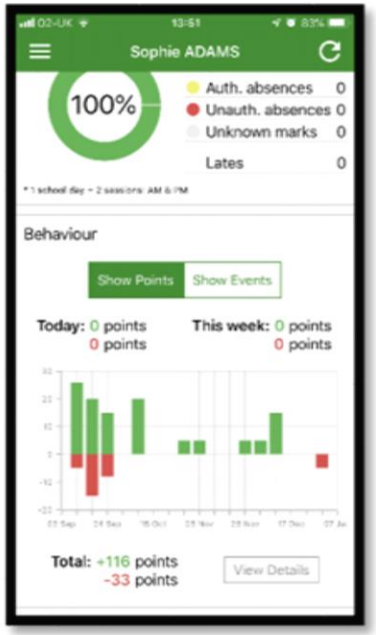
Attendance:
From the main screen scroll down to view attendance information.
A chart displays the overall percentage attendance.



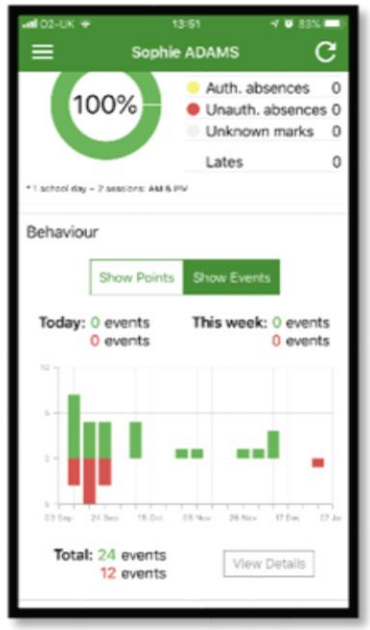
The App will also display detail about specific attendance marks including authorised and unauthorised attendance marks.
Late marks are incorporated into the overall attendance marks and unknown marks are waiting for confirmation of the reason for the absence.
NOTE: There are two possible sessions in a school day, AM and PM.



Behaviour:
Continue to scroll down the app to the Behaviour information. This will display a bar chart of both negative and positive behaviour points over time, the chart can be scrolled across throughout the year. Positive points are shown in green and negative points in red with a total points count.



If you prefer you can toggle the graph to show the number of events rather than points. This will allow you to see the number of positive and negative events recorded over time. Again, you can scroll the chart across and positive events are in green and negative events in red.



Behaviour detail: If you tap the 'details' button or tap in the white space around the behaviour chart you can then view the detailed event record for your child including the date, the subject, the event type and the associated points. This is useful to see if positive or negative behaviour are occurring in certain lessons.
