

9th February 2023

Dear Parent/ Carer,

We have organised an Eco Day for Year 7 taking place on Friday 10th March. The day will include a session delivered by Severn Trent. There will also be gardening, upcycling bird feeders and making a recycled art mural.

In order to do this, we will need pupils to collect and bring in as many recycled plastic bottles and food packaging.

If pupils could start collecting this over February half-term and start to bring them into school from Monday 27th February- Wednesday 8th March. Each form will have a box to collect their recycled items ready for the Eco day. The more recycled items we can collect; the better impact pupils will have for the activity sessions.

We do not need any cardboard for our Eco day but have a list of items we are looking for.

Items to bring in:

- Crisp packets
- Plastic bottles
- Yoghurt pots/tubs
- Plastic milk bottles
- Blue and Green milk bottle lids
- Green food packaging (for the recycling logo)
- Sweet and chocolate wrappers (plastic/foil)
- Old fabric scraps, buttons, ribbons to decorate bird feeders

Thank you for your support

Yours Sincerely,

Z. Yaqub
